RAPID MAINTENANCE GROUP

COMPANY OVERVIEW

Rapid Maintenance Group is a reliable, solutions driven business in Central QLD, operational since March 2019, providing specialised labour & equipment maintenance solutions to the Mining, Civil, Quarrying and Agricultural industries.

Owned & operated with company director Sean Grieve having over 15years' experience in the Civil, Mining & Agricultural industries.

Sean, completing his Trade with Bucyrus Engineering then being bought out by Hastings Deering, has expert experience and understanding the Equipment Maintenance sector.

"Successful management of equipment maintenance & servicing require an ability to implement proven knowledge, practices and experienced management skills. This enables the effective and efficient completion of all top tier projects. Rapid Maintenance Group deliver this on all projects we undertake".

SAFETY

ZERO HARM
EVERYONE HOME.SAFELY.EVERYDAY

Rapid Maintenance Group takes great pride in our safety procedures, as the safety of our employees and customers is one of our top priorities. We are continuously making improvements to ensure the safety of all our employees, contractors and fellow industry workers.

As at the commencement of 2026, Rapid Maintenance Group are currently at 476 days LTI free.

This Equates to approx 200,000 man hours worked without an injury to any of our employees or contractors. We at RMG pride ourselves on our Safety Culture and are always encouraging our people to bring forward ways or means of improving the way we work & ways to make our job safer.
After all, everyone deserves to go home at the end of each shift.

RMG has a proven reputation that's built on years of experience, a strong work ethic and reliable work, and we continually provide the highest standard of work and customer service.

We look forward to working with you.

RAPID MAINTENANCE GROUP
